Joy graduated from Drury University in 1991 with a BS in Business Administration. She went on to complete the Advanced Human Resource Certification with Pinnacle Training and Development in 2006. Joy has experience in business as an employee and an owner but says "my real area of expertise is in relating to people. I have a knack for understanding other people's position even if I don't agree with it." She is fortunate to be a full time mom and enjoys volunteering at the school. She also enjoys spending time with her family, camping, scuba diving, riding motorcycles, gardening, and cheerleading while her kids play basketball, volleyball, and football.

Joy says "I feel strongly that the quality of our teachers and staff directly affects the quality of our students education. We should strive to hire and keep the very best staff. I think it is important to continually update the technology available to our students. Experience in this area will help equip our kids to find employment after graduation. We must work hard to ensure that the funds available to the school are spent responsibly. I feel that I can help the school board make positive changes for our children by addressing each issue with a helpful and enthusiastic but responsible attitude. I would like to see more people attend the school board meetings. They are an excellent way for citizens to voice their ideas and concerns. The meetings also help people understand that the school is a part of government and decisions must be made carefully and changes often come slowly."

Joy would welcome input from the voters. She can be reached at (417)827-3044 and by email at [joyreynaud0@gmail.com](mailto:joyreynaud0@gmail.com)
